

TIKI WA'HA ROTARY CLUB OF ALA MOANA

JUNE 30, 2003

NOW READ THIS

Good intentions are sometimes fleeting things and frequently they fail to become a reality.

Every week at the meeting there are those who speak of various programs. I listen the best I can to what you have to say and then ask you to be sure and send me something.

You nod your head and you agree. However when it comes time to sit down and devote an evening to putting the Tiki Wa'Ha in final form, all that good stuff you promised to send has never appeared.

Some of you are very good and try to help. Others have much to say at the meeting and never produce the first written word. This makes my job tough.

Unfortunately, many loud explosions and other noises over the years have impaired my hearing. I wear hearing aids, they help. But, I cannot be sure of all the details and therefore depend on your submissions.

I need your support. Especially from those of you who have information that needs to be published. If you promise to send something - Do It!

Tony Wong

Inducted into the Rotary Club of Ala Moana the first day of June 1978. His sponsor was Joe Yuen, a now resigned Charter Member of the club.

Tony has worked diligently throughout his years as a member and now is the president of the club for Rotary Year 2003 to 2004.

He will need your help as he works with the Board of Directors to bring our club through another successful Rotary Year.

We have just come off a fine year and we will have another great year. But a salute must go to those who brought the club through the past year.

STILL WORKING

The past month has been a tad on the trying side. I have spent more time in the doctor's office and in the hospital than at home. The result is that there has been a major cut in the number of hours that I am going to be working. Self preservation comes first.

You will note in the left column of this copy of the Tiki my comments on needing your help. I have written this before and each time it has sort of fallen by the wayside. If you want a club bulletin then you must cooperate. This may appear to primarily apply to the directors and the officers of our club. However, such is not so. It our club and the Tiki is a means of keeping everyone in on the details of what is going to take place. It is your bulletin; support it.

To those of you who have wished me well, thank you; I am doing much better and am now in possession of a new bit of hardware known as a defibrillator. The price was astronomical

The Four-Way Test

Of the things we Think, Say and Do

1. Is it the Truth?
2. Is it Fair to all concerned?
3. Will it build Goodwill and Better Friendships?
4. Will it be Beneficial to all concerned?
